Hi guys,

This is the stakeholder list I currently have. We used this for our genome editing outreach earlier this year. I could imagine that the CF list is even a little more broad and would give us a little more coverage. Happy to receive any additional contacts you might have to build out the list.

Thanks,
Jason

Was just thinking the same thing. There is likely overlap between the lists, but not perfect matches. We want to use as much of the info FDA has already pulled together and link to their pages for the details. Let's talk real soon, tomorrow at the latest. Sid

We need to coordinate and get our “stakeholders” notified of this effort, public meetings, etc.

I think we had a fairly robust effort for the CF Update.
